

It appears that the **raw transcript** was not included in your message following the "RAW TRANSCRIPT TO FORMAT:" line.

Please provide the transcript text, and I will immediately convert it into the polished, print-ready document you require, ensuring:

- * **The Metadata Header** is correctly formatted with the session title, inferred main reference, and the date May 03, 2026.

- * **Strict Verbatim** standards are met (removing "uh/um" while keeping rhetorical repetitions and sidebars).

- * **Formatting** follows your Markdown specifications (sections, italics for themes, bold for emphasis).

- * **Punctuation Cleanup** is applied to any AI-transcribed glitches.

- * **Opening Prayers** are omitted.

- * **Glossary** spellings (like 16th Avenue Gospel Chapel) are used correctly.

Please paste the transcript below, and I will get to work!
